

We Are Family Discussion
Ephesians 5:32, Romans 12

1. What does it mean for the church to be the *bride of Christ*, and how should that shape the way we treat one another?
2. How is being part of God's household different from merely attending church services?
3. What does biblical submission look like in a healthy church family?
4. How do we balance submission with discernment when leadership acts unbiblically?
5. Why is formal church membership important considering the New Testament's teaching on covenant community (cf. Acts 2:41–47)?
6. Why is physically gathering with the church essential for family life, and what is lost when we treat church as primarily online or optional?
7. How can we intentionally cultivate deeper emotional and spiritual investment in one another as a church family?
8. What unique role has God given you within your church family?
9. What happens when members choose to observe rather than participate?
10. How does understanding church membership as a covenant relationship challenge today's consumer mindset toward church?
